

Point of Service Registration

All scheduled patients can go directly to the CRMC Radiology Department where they will be registered within minutes by the Radiology Registrar.

Directions to CRMC's Harris Campus

From New York City and Westchester, NY: New York State Thruway to Exit 16. Route 17 West to Exit 102. Follow the signs to Catskill Regional Medical Center.

From Binghamton, NY: Route 17 East to Exit 102. Follow the signs to Catskill Regional Medical Center.

Directions to CRMC's Grover M. Hermann Division

From New York City and Westchester, NY: New York State Thruway to Exit 16. Route 17 West to Exit 104. Follow Route 17B West to NYS Route 97. Follow NYS Route 97 South to Callicoon. CRMC Hermann Division is located on the right.

From Binghamton, NY: Take Route 17 East to Exit 87. Follow the signs through Hancock to NYS Route 97. Follow NYS Route 97 to Callicoon for 24 miles. CRMC Hermann Division is located on the right.

Same day appointments available for most Imaging Services.

MRI

Monday - Friday: 8 a.m. - 8 p.m.
Saturday: 8 a.m. - 8 p.m.
845.794.3300, x2216

C.T. Services

Monday - Friday: 8 a.m. - 6 p.m.
Saturday: 8 a.m. - 4 p.m.
845.794.3300, x2225 or x2226

Diagnostic Imaging

Monday - Saturday: 8 a.m. - 8 p.m.
845.794.3300, x2225 or x2226

Ultrasound

Monday - Friday: 7 a.m. - 10 p.m.
Saturday: 8 a.m. - 8 p.m.
845.794.3300, x2225 or x2226

Nuclear Medicine

Monday - Friday: 7 a.m. - 5 p.m.
845.794.3300, x2225 or x2226

Mammography

Monday - Friday: 9 a.m. - 4 p.m.
845.794.3300, x2225 or x2226

Grover M. Hermann Division

Monday - Saturday: 8:30 a.m. - 8:30 p.m.
845.887.5530, x2120

CRMC's Imaging Services Include:

- M.R.I.
- CT Scan
- Diagnostic Imaging
- Computerized Tomography
- Ultrasound
- Nuclear Medicine
- Mammography
- Bone Densitometry
- Angiography Suite
- Computed Radiography, Picture Archiving Communication System and Web Distribution System
- Portable X-Ray Machine for Bedside Exams

Imaging Services appointments can be scheduled Monday - Friday, 8 a.m. - 6 p.m. and Saturday, 8 a.m. - 4 p.m. by calling 845.794.3300, extensions 2225 and 2226.

C.T. Services

The C.T. scanner is a 16-slice General Electric state-of-the-art, light-speed system. In addition to general diagnostic C.T. scans, CRMC's system has sophisticated angiography software that allows us to provide cutting-edge invasive vascular studies with only an IV injection. Additionally, the system is specifically designed to accommodate pediatric patients using low-dose techniques. The C.T. scanner is located in close proximity to the Emergency Department which allows for trauma needs to be facilitated in a timely manner.

CRMC provides Board Certified Radiologist interpretations 24/7 within 30 minutes. Our staff also includes a staff C.T. Certified Technologist on site 24/7 and two specially-trained registered nurses available during scheduled hours.

MRI

Your doctor writes the prescription, but you choose where to have your MRI. At CRMC you can make your appointment and have your MRI all in the same day. Your doctor may even receive your results before you get home. Contact CRMC's MRI office at 845.794.3300, extension 2216.

Since it's your choice, schedule your MRI where you get weekend and evening hours, quick results plus the most detailed images available in the area. The new MRI at CRMC offers breakthrough diagnostic imaging technology, and your MRI will be read by a American College of Radiology Board Certified Radiologist.

Bring your favorite music on compact disc - headphones are available.

MRI gives you:

- Early cancer diagnosis which increases survival rates
- Accurate evaluation of lower back pain
- Conclusive diagnosis of headache & dizziness symptoms

Diagnostic Imaging

CRMC Diagnostic Imaging Department provides a full range of Muscular/Skeletal procedures. In addition, our new Fluoroscopy unit provides high-level gastrointestinal imaging procedures and its low-dose radiation applications make it well suited for pediatric patients.

Diagnostic images are provided by Computer Radiography (CR) and integrated to the Picture Archive Communication System (PACS) which maintains high-level-quality imaging with low-radiation dose compared to conventional filming. Additionally, CR imaging provides fast results as all images are viewed online by a American College of Radiology certified radiologist.

Ultrasound

CRMC's Ultrasound services provide abdominal, OB/GYN vascular and specific muscular/skeletal imaging. The CRMC Ultrasound staff consists of trained ultrasonographers who are on site during scheduled hours and available 24/7 for emergency situations. The Ultrasound Department provides imaging in a modest and private environment, at the patient's bedside, in the Emergency Department and in the labor/delivery area.

Nuclear Medicine

The CRMC Nuclear Medicine Service is accredited by the American College of Radiology (ACR). It provides a complete range of organ scanning as well as Nuclear Cardiology imaging. Our state-of-the-art equipment features the only C.T. /Nuclear imaging system in the area. The department also provides cardiac imaging under the direction of a team of Board Certified Cardiologists.

Mammography

The CRMC Mammography Department is accredited by the American College of Radiology and performs screening mammography as well as diagnostic mammography. There is a Radiologist on site for diagnostic mammography.

CRMC's mammography services include needle localization for excisional breast biopsies. Our technologists are highly-trained individuals who are American Registry of Radiologic Technologists (ARRT)-certified. CRMC physicians are also highly trained in mammography interpretation and performing wire placement procedures for Excisional Biopsies.

Mammography services are also available at the Women's Health Center in Monticello and aboard the Health Mobile.
